## Mouser Electronics begins expansion project

[Mouser Electronics](#) has broken ground on a 229,000-square-foot expansion of its Mansfield headquarters, the company said Monday.

The expansion project will take the company's headquarters from 173,000 square feet to 402,000 square feet.

Mouser, a privately held electronics distributor, said the expansion will add 52,000 square feet of new office, conference and meeting space, as well as an expanded customer service call center and new data center.

The expansion also will include 177,000 square feet for new automated, wireless warehouse facilities that will support the paperless systems in sales and order fulfillment.

The expansion also will increase the company's 470-person work force.

Construction on the expansion began Nov. 7, and is expected to be completed June 4, 2006.
